

I am a regular KLOVE listener, as well as a monthly supporter. KLOVE serves a vital purpose in our community. Residents of this local end-of-the-road community are richly served by having a radio station of its quality available on the FM dial. KLOVE's mission is needed here, far away from the lower 48, perhaps more than anywhere. If KLOVE were displaced by an LPFM broadcaster providing other programming, there would be a huge hole in the moral fabric of this community. The uplifting message that KLOVE brings is of vital public interest and should continue uninterrupted. KLOVE provides biblical truth in the form of quality music and messages, and this whole country desperately needs truth and high moral standards promoted to its citizens, if for no other reason than to counteract the morally bereft mainstream media. Keep KLOVE on the air!!
